

Your Walden Degree: Impact Your World

"Walden empowers me to fully maximize my skills and my resources. It not only empowers me to truly visualize my dream but also motivates me to pursue that."

Richard Bohn
Ph.D. in Psychology Student

As an adult, your priorities are likely much different than they used to be. You're probably more focused on the future and ready to make changes that can truly impact your life and possibly the lives of others. It's important to choose an educational partner that can help you increase your skills, knowledge, credentials, and self-confidence so you can make significant contributions to your field and your community.

At Walden University, our **online degree programs** are designed to help career professionals achieve their vision of success, find personal enrichment, and advance their careers. Our graduates, in turn, often become social entrepreneurs—leading change and inspiring others.

Core to Walden is our unique and differentiating mission of making a difference. A Walden education provides the opportunity to gain the knowledge and leadership skills you need not only to grow as a professional but also to positively transform other individuals, communities, and organizations. **In fact, in a recent survey, 75 percent of Walden alumni felt that their program helped them to advance positive social change.***

*Based on Walden's 2007 graduate survey respondents.

Since 1970, Walden has stayed true to its mission: serving the higher education needs of professionals whose work impacts others. Our students, alumni, and faculty members join the university in its commitment to applying knowledge and innovative solutions to society's most pressing social problems. At Walden, we embrace the idea that with focused action and well-developed strategies, individuals can have a positive impact on the world around them, while inspiring others to do the same.

"My job impacts the health of the nation, and at Walden, I related my course projects to my profession. Walden showed me how to evaluate our progress to monitor potential implementation and impact failure points. I am now able to give management the information they need to make decisions about program funding."

Hilda Shepard
Ph.D. in Public Policy and Administration Graduate

LEARN WHAT WALDEN CAN OFFER YOU

Quality Program Design and Instruction

Walden's programs are designed collaboratively with input from leading practitioners, instructional design specialists, faculty members, and professional groups. Our courses are taught by distinguished faculty members who are scholars, researchers, and active professionals offering a breadth of ideas, opinions, perspectives, and experiences. They excel at **teaching theory that is directly applicable to the challenges you face in the workplace.**

Practical and Relevant Programs

Walden has mastered the use of technology to create an advanced learning environment. Your studies will help you build new skills and motivate you to set—and achieve—new goals. Our programs are designed to be current and relevant to provide you with **techniques that can be applied immediately** in your organization and your community.

Knowledge and Skills to Make an Impact

At Walden, you will be encouraged to question assumptions, solve problems, and collaborate so you can develop your critical-thinking skills and your awareness of what it takes to have a positive impact on those around you.

When you are ready to take the next step, one of our knowledgeable enrollment advisors can answer any questions you may have and help you determine which program best meets your goals and needs. Contact us today to learn how a Walden degree can help change your world.
