For more than 40 years, Walden University has helped working professionals achieve their academic goals and make a greater impact in their professions and their communities. An accredited university, Walden is distinguished by high academic standards, experienced faculty, and cutting-edge technology. Today, more than 46,500 students from all 50 states and more than 140 countries pursue bachelor's, master's, or doctoral degrees at Walden.

There are so many ways to learn at Walden, including certificates for a number of areas of study:

- Education
- Health
- Information Systems
- Nursing
- Project Management
- Psychology
- Public Policy and Administration

You can also take individual courses at every degree level from a variety of subject areas:

- Counseling and Social Service
- Education
- General Education
- Health Sciences
- Management and Technology
- Nursing
- Psychology
- Public Policy and Administration

Walden offers both state-approved educator licensure programs as well as programs and courses that do not lead to licensure or endorsements. Prospective students must review their state licensure requirements prior to enrolling. For more information, please refer to www.WaldenU.edu/educlicensure.

Prospective Alabama students: Contact the Teacher Education and Certification Division of the Alabama State Department of Education at 1-334-242-9935 or www.alsde.edu to verify that these programs qualify for teacher certification, endorsement, and/or salary benefits.

Prospective Washington state students are advised to contact the Office of the Superintendent of Public Instruction at 1-360-725-6275 or prof.educ@k12.wa.us to determine whether Walden's programs in the field of education are approved for teacher certification or endorsements in Washington state.

Additionally, teachers are advised to contact their individual school district as to whether this program may qualify for salary advancement.

Note to all Pennsylvania residents: Walden University's teacher preparation program and special education endorsement programs are approved by the Minnesota Board of Teaching as leading to licensure and endorsement, respectively. Because these programs are not reviewed by the Pennsylvania Department of Education, candidates are instructed to apply for Pennsylvania certification as out-of-state graduates of a teacher preparation program.

Many countries have their own accrediting bodies, and degree recognition differs from country to country. Prospective students who reside outside of the United States are advised to review accreditation requirements for their own country to confirm recognition of their Walden program of choice.
