

## Managing Your Time While Earning a Walden Degree

*"I chose Walden because it gives me the flexibility of attending class anytime I want and anywhere. I don't have a regular 8 a.m. to 5 p.m. job. My working hours are always different. As a Walden student, I don't have to put aside my goal of pursuing a Ph.D."*

At Walden University, we understand that personal and professional commitments create demands on your schedule that can often be difficult to manage while continuing your studies. That's why we focus on you—so you can focus on learning.

## Online Learning Is Not Learning Alone

If you're not familiar with online learning, the virtual classroom can seem like a lonely prospect. At Walden, we've developed a student orientation that helps you learn how to use Walden's classrooms as an engaging learning environment where you can exchange ideas with peers. To learn more about the student orientation, call an enrollment advisor at 1-866-492-5336.

*"I'm a mom and a working professional, and I just don't have the time to sit and go to regular school classes every night. ... I have to do homework and be a mother and a wife and also a professional, so Walden fits into my schedule."*
