

Your Walden Degree and Your Career

"Walden allows me to further my career through my research, but at the same time, it gives me the tools that I'm going to need to actually implement social change."

Long Doan
Walden Graduate

Pursuing a graduate or undergraduate degree is a significant step toward the next phase of your career development. Walden can help you gain experience that will help get you noticed by your superiors and peers.

Increase your personal and professional resources.

Through your studies, you will build relationships that can last a lifetime. Walden has more than 104,000 students and alumni from all 50 states and more than 155 countries. Walden is an accredited institution offering doctoral, master's, and bachelor's degrees online to working professionals who want to make a difference.

With Walden's global network, you will have the opportunity to **connect with peers** around the country and around the world. You will also **interact and exchange ideas with distinguished faculty members** who are active professionals in their fields.

“Walden is helping me make meaningful changes both professionally and personally. It’s my goal to be a more effective agent of change in our society. In the short term, I see myself working as a knowledge management professor. In the long term, I see myself as a dean of a business school and even a college president.”
