Instructions: Please read this entire statement. Once read, complete your name, Walden ID, date, and initial each statement. You must then print this form, sign and fax it to the Office of Financial Aid at (410) 209-8026.

Conditions

The U.S. Department of Education's Teacher Education Assistance for College and Higher Education (TEACH) Grant is awarded by Walden University to students who are completing or intend to complete coursework in teaching and who agree to serve for a minimum of four (4) years as a highly qualified full-time teacher in a high-need field in a low-income school. If a student awarded the Federal TEACH Grant does not complete the four (4) years of qualified teaching service within eight (8) years of completing the course of study for which the Federal TEACH Grant was received, or otherwise fails to meet any other requirement of the Federal TEACH Grant, the grant will be converted into a Federal Direct Unsubsidized Loan, with **interest accrued and capitalized** from the date the grant was disbursed.

Note on Teacher Certification and the Federal TEACH Grant

In order to satisfy the conditions of the Federal TEACH Grant service agreement, upon graduation, students must serve as a highly qualified teacher in a high-need field. Unless students are already certified in a high-need field, this would likely require they obtain certification in a new teaching area.

For certification in a new area, some states will accept specific coursework and/or passing content knowledge exams; however, many states require the completion of a "state approved" certification or endorsement program. The M.A.T programs in early childhood education and special education and the special education endorsement programs are "state approved" for teacher licensure.

Additionally, elementary teachers who teach many subjects (traditional elementary teachers) would not be able to fulfill their service agreement, unless their state has designated elementary as a high-need field. Otherwise, traditional elementary teachers would need to move into a high-need field like reading, special education, secondary science, etc. Federal TEACH Grant recipients must review their state's highly qualified and teacher certification requirements for the high-need field they intend to serve. Students must ensure they are able to meet the service agreement.

Eligible Programs

Students must be enrolled in the following Walden Program of Study designated as Federal TEACH Grant eligible (this program is administered by Walden's Richard W. Riley College of Education and Leadership):

Current Programs:

Teacher Preparation Program with a Master of Arts in Teaching (M.A.T.)⁺

- Special Education (K-Age 21)

⁺Walden's teacher preparation programs are approved by the Minnesota Board of Teaching for licensure in Minnesota. Walden's enrollment advisors can provide individuals with guidelines and other information about licensure. It remains the individual's responsibility to understand and comply with the out-of-state licensure requirements for the state in which he or she seeks to be licensed.

Prospective Alabama students: Contact the Teacher Education and Certification Division of the Alabama State Department of Education at 1-334-242-9935 or www.alsde.edu to verify that these programs qualify for teacher certification, endorsement, and/or salary benefits.

Prospective Washington State students are advised to contact the Office of the Superintendent of Public Instruction at 1-360-725-6320 or prof.educ@k12.wa.us to determine whether Walden's programs in the field of education are approved for teacher certification or endorsement in Washington State. Additionally, teachers are advised to contact their individual school district as to whether this program may qualify for salary advancement.
