

Disclosure to Prospective Massachusetts Students

Massachusetts law requires Walden to provide this disclosure to prospective Massachusetts students at least 72 hours prior to enrollment.

COST OF PROGRAM

The following chart represents the tuition and fees charged for completing a program, including the typical cost for books and supplies, by degree level. In programs that contain a residency or field experience requirement, the cost of transportation is not included.

GRADUATION RATE AND GRADUATION TIME

Massachusetts law defines “Graduation Rate” as the number of students who received certificates or degrees in their program during the last two calendar years, divided by the number of students who enrolled in the same program during the latest two calendar years. Please note that the number of enrolled students used to calculate “Graduation Rate” under Massachusetts law includes students who are at the start of their program and have not yet completed what is required to graduate.

Massachusetts law defines “Graduation Time” as Median Completion Time. “Median Completion Time” is the median duration of attendance in months, rounded to the nearest month, of all students who obtain a certificate, diploma, or degree from a program during the latest two calendar years.

The following chart represents the 2020-2021 Graduation Rate and Graduation Time, as defined by Massachusetts law, for Walden programs with Massachusetts graduates and students during the applicable reporting period. Programs with no Massachusetts graduates or students for the required time period are not listed.

Program	Cost of Program ¹	Grad Rate (20 & 21) ²	Grad Time (Median completion time for past two years) ³
BS in Social Work	\$64,621	0.0%	NA

¹ The following chart represents the tuition and fees charged for completing a program, including the typical cost for books and supplies, by degree level. In programs that contain a residency or field experience requirement, the cost of transportation is not included.

² Massachusetts law defines “Graduation Rate” as the number of students who received certificates or degrees in their program during the last two calendar years, divided by the number of students who enrolled in the same program during the latest two calendar years.

³ Massachusetts law defines “Graduation Time” as Median Completion Time. “Median Completion Time” is the median duration of attendance in months, rounded to the nearest month, of all students who obtain a certificate, diploma, or degree from a program during the latest two calendar years.

YOUR LOAN DEBT

You must repay money that you borrow as student loans to pay for this program, including interest. You must repay any portion of the money you borrow to pay for this program, even if you fail to complete or dropout of the program. Failure to repay student loans is likely to have a serious negative effect on your credit, future earnings, and your ability to obtain future student loans.

LOAN NONPAYMENT STATISTICS

90.6% of Walden students included in the FY18 cohort default rate population defaulted on, or failed to repay, their loans during the cohort default period. Massachusetts regulations require Walden to include in this calculation students who are in deferral and forbearance, and may not currently be required to repay their loans. Students in deferral and forbearance are not in default per federal financial aid guidelines. Due to the COVID 19 relief measures put in place by the federal government, all borrowers were put into a special forbearance status, which resulted in a higher nonpayment statistic compared to years in which all borrowers were not administratively placed into forbearance. Walden believes that its 3-year federal cohort default rate (the number of students who have defaulted on, or failed to repay, their loans) of 4.7% for the FY18 cohort is a more accurate representation of its student loan repayment rate than the calculation required under Massachusetts regulations.

PLACEMENT RATES AND EMPLOYMENT STATISTICS

Massachusetts regulations require that a school who offers any occupational programs must disclose the graduation placement rate of graduates during the last two calendar years who obtained full time, non-temporary jobs in their field of study, and total placement rate of students that enrolled in the program during the last two calendar years who obtained full time, non-temporary jobs in their field of study. Walden has not tracked and is not required by its accreditor, the Higher Learning Commission, to track such rates. For the purposes of this disclosure, Walden University discloses a graduate placement and total placement rate of zero percent for all programs.
